### From the Founder's Desk – Smita Mehra Sharma

At Genius Education, we believe that math is more than numbers—it's the language of the universe. Our Accelerated Math Development Program, rooted in the brilliance of Vedic Mathematics, is designed to spark curiosity, sharpen minds, and build lifelong confidence in children.

When a child discovers the joy of solving a problem mentally and effortlessly, their eyes light up with belief—"I can do this." And that belief changes everything. Let's raise thinkers, not just test-takers. Because every child deserves to feel like a **Genius**.

"Don't just count numbers—make every number count."

### FRANCHISE INTRODUCTION

**NIKI THAKKER**  
**MARSDEN PARX & SCHOFIELDS**

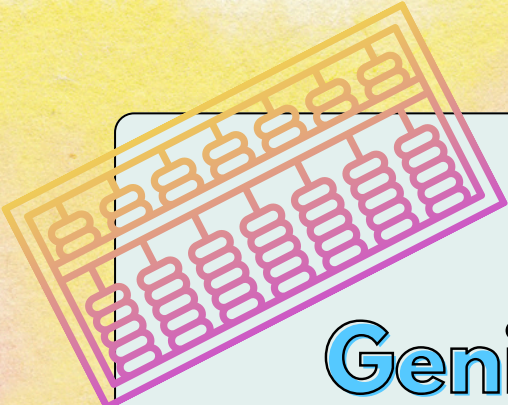

Niki Thakker, a former software tester turned passionate educator, brings a unique blend of analytical thinking and heartfelt dedication to her teaching. Her approach is defined by adaptability, patience, and interactive learning, underpinned by a clear, structured style that resonates with young minds. Niki fosters creativity and imagination in the classroom, creating a warm and engaging environment where students feel inspired and supported

### Together We Thrive Our Philosophy

At Genius Abacus, we believe growth is not an individual race—it's a shared journey. Whether it's a student mastering math, a parent encouraging practice, or a teacher crafting fun lessons, everyone contributes to a child's success. Our motto "Genius Grows Together" reflects this spirit of unity and collaboration.

#### Our Accelerated Maths Development Program

Accelerated maths development program is specially designed for year 5 and above students which is a perfect fast track mix of abacus and vedic maths, apt to get prepared for high school and fast track your competition preparation. Whether your child is an aspiring maths genius or simply looking to explore an exciting approach to maths, this course is tailored to cater to diverse learning needs.

#### Genius Reward & Recognition

NSW Parliament Recognition

Local Business Awards Finalist

Business CHAMPIONS Award Finalist

World Malyalee Council Award

Leadership & Innovation Award

Artisan Award

#### Parent's Review

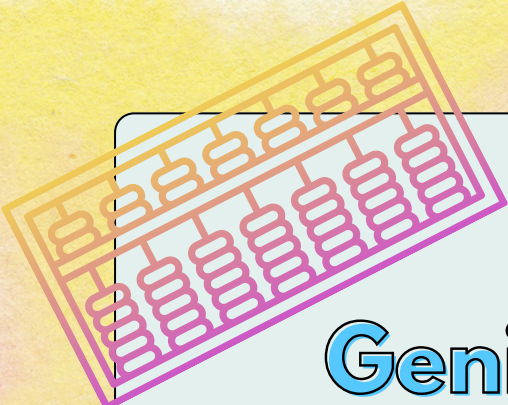

ASMA

Two years ago, I noticed my child struggling with basic Maths calculations and lacking confidence with numbers. A friend recommended Smita's Abacus classes at Castle Hill, and though I was unsure initially, I decided to give it a try.

The results were remarkable! Not only did my child's Maths skills improve significantly, but her confidence and interest in numbers also soared. Smita has a wonderful way of keeping children engaged and motivated, and my child always comes home happy and energized.

Smita's teaching methods are effective, and the overall professional management of classes, payments, and communication with parents is commendable.

I highly recommend these Abacus lessons—even for children who are already good at Maths. It's a valuable life skill. Thank you, Smita!

### Graduate Testimony

**SHYNA JAIN**

When I first started abacus, I never imagined how much it would change the way I learn. What used to take me minutes now takes me seconds to solve. I am truly grateful for how far I came thanks to my amazing teacher, Smita and my handy tool which rescued me from difficult problems and won me a lot of maths awards because of my quick mental thinking. Thank you, Ms Smita.
