Smita Mehra Sharma
Founder Director

At Genius Abacus, we believe that every child holds the ability to become a confident and exceptional learner. Our goal is to make mathematics enjoyable while enhancing concentration, memory, and analytical thinking. What started as a humble beginning has now evolved into a thriving community of students, parents, and educators coming together to inspire and shape young minds. We truly appreciate you being a valued part of the Genius family. "Within every child lies a spark of brilliance—we simply help it glow."

Expanding Our Reach

Genius Abacus is proud to be actively conducting classes across multiple locations, making quality learning accessible to more children.

Our growing presence reflects the continued trust and support of our parent community.

We remain committed to nurturing confident, focused, and capable young learners at every centre.

Scan the QR code to explore all our locations and find a centre near you. "Empowering young minds, one location at a time."

Brain Boost: How Abacus Enhances Focus and Memory in Children

Learning through Abacus goes beyond numbers—it trains the brain to stay focused and attentive. As children visualize beads and perform calculations mentally, they develop stronger concentration and sharper memory. This practice encourages them to listen carefully, think quickly, and retain information more effectively.

With regular Abacus training, children improve their ability to process information, which supports better performance not just in math but across all subjects. It also builds patience and discipline, helping them stay engaged in tasks for longer periods of time.

By strengthening cognitive skills, Abacus empowers children with tools that benefit their academic journey and everyday learning experiences.

Strong focus today builds a sharper mind for tomorrow.

Upcoming Events & Programs Calendar

Here is the schedule of our upcoming events and activities. We warmly encourage all students to participate and showcase their skills and enthusiasm.

JUNE 14 Annual Competition

Our Annual Competition will give students the opportunity to showcase their speed, accuracy, and mental math abilities. It encourages healthy competition while celebrating the progress and dedication of our young learners. Students will gain confidence as they challenge themselves and strive for excellence.

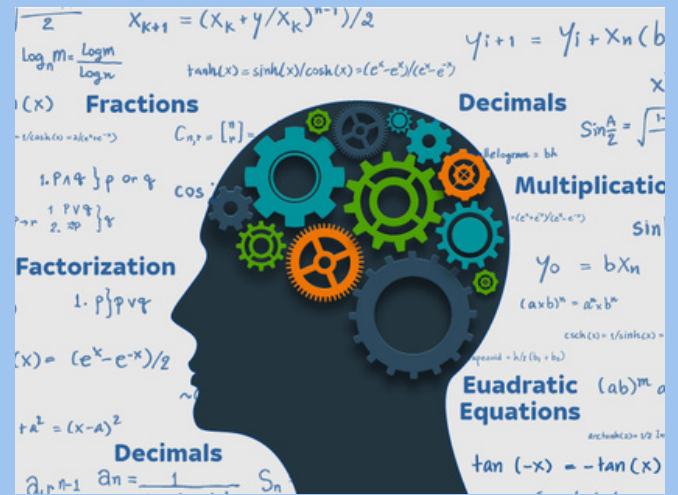

"Excellence is not being the best; it is doing your best every time."

JUNE 21 Annual Showcase Event

The Annual Showcase Event will celebrate the talents, confidence, and achievements of our students through engaging presentations and activities. It will be a proud moment for children to demonstrate their learning journey to parents and the community. The event also highlights the spirit of teamwork and creativity within the Genius family.

"Every child has a spark of genius waiting to shine."

Stay tuned to our website and social media channels for the latest updates and announcements about these exciting events.

The Magic of Vedic Maths: Where Speed Meets Simplicity

What if solving complex math problems felt as easy as a game? Vedic Mathematics brings that magic to life by turning numbers into patterns that the mind can quickly recognize and solve. Instead of long, complicated steps, children learn smart techniques that make calculations faster, simpler, and even fun.

With Vedic Maths, the fear of numbers slowly fades away. Children begin to enjoy the challenge, gaining confidence as they discover quicker ways to reach the right answer. It sharpens their thinking, improves accuracy, and builds a natural love for mathematics.

More than just speed, it's about developing a flexible and creative approach to problem-solving—skills that stay with them for life.

When math becomes magical, learning becomes effortless.

Young Entrepreneurs Workshop

Your First Step into Business!

We successfully conducted the Young Entrepreneurs Workshop at Jasper Road Public School (Heritage Room) on 8th & 10th April for Year 3-5 and Year 6 & Above.

With the theme "Think like an Entrepreneur!", the workshop featured engaging activities, real-life case studies, and hands-on experiences. Children actively participated, explored ideas, and enjoyed learning practical business skills.

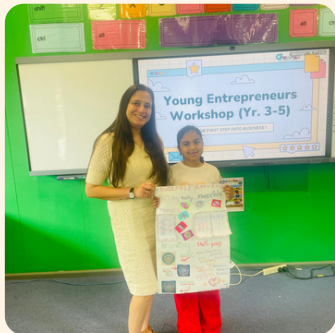

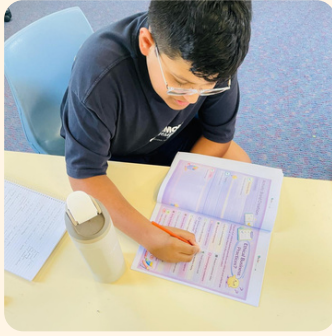

The sessions helped build confidence, creativity, and decision-making abilities among the students.

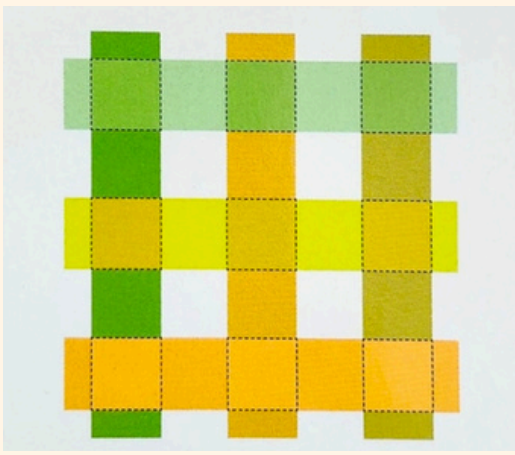

Their enthusiasm and participation made the workshop truly impactful and memorable.

Students also gained exposure to real-world thinking and teamwork through collaborative tasks.

Many showcased innovative ideas, reflecting their understanding and excitement.

Not just a workshop... the beginning of a success journey!

Try this with your child

Genius Puzzle Corner

Fill in the box so that there is only one triangle, one square and one circle in each strip.

Workshop Alert 1 !

Genius Abacus presents an engaging Thinking Skills Workshop at the Kids Enrichment Expo, held at Pioneer Theatre, Castle Hill.

Dates: 14th April 2026 & 16th April 2026

Time: 1:00 PM – 2:00 PM

For: Kindergarten to Year 8

This interactive 1-hour workshop is designed to boost children's mental abilities through fun puzzles, brain games, and thinking challenges. It focuses on enhancing logical reasoning, observation, pattern recognition, and problem-solving skills—helping children think smarter, faster, and with greater confidence.
